Who We Are

Crystal Clear Software Limited is a Uganda-based software company and the developer of Loan Performer, a microfinance banking system used by financial institutions across Africa to manage savings, loans, and client relationships.

What We Offer

- Loan Performer core banking / microfinance management system
- Implementation, data migration, and staff training services
- Ongoing technical support and system maintenance
- Custom reporting and integrations for financial institutions

Our Clients

We serve microfinance banks, savings and credit cooperatives (SACCOs), and other financial institutions across East Africa and beyond, helping them digitise operations and improve efficiency.
